After 100 years of making cars, we know about drivers too. The Mazda MX-5 2020 SE-L is designed for real drivers. Those who embrace the experience of the journey as much as the destination. The lucky few, who feel the road passing through them, not beneath them. For the achievers and believers, who care for the future, but live for today, we took the world's best-selling roadster and made it better.

The MX-5 2020 SE-L is sharper and safer without compromise on performance. The innovative Skyactive-G engine may be using 15% less fuel, but with 132hp, there's no lack of excitement. Award-winning sleek design and raw energy, with the added security of Dynamic Stability Control and emergency braking sensors, promises stimulation at every turn. And with 44MPG, the scenic route will always be an option for every journey, no matter how far.

The MX-5 2020 is the sports car for every day. But not for every one.
